

Acquisition of all the Shares Representing the Capital of Briclog

RELEVANT FACT

Wilson Sons Limited (“Wilson, Sons” or the “Company”) (Bovespa: WSON11) announces that, further to the market announcements of 2 June 2011, 9 October 2012 and 6 December 2012, that it has completed, through its subsidiary Brasco Logística Offshore Limitada (“Brasco”), the acquisition of all the shares representing the capital of Brazilian Intermodal Complex S/A (“Briclog”), concluding the acquisition at the date of July 1, 2013. The closing price of the acquisition of shares was BRL 89.8 million (eighty-nine million and eight hundred thousand Brazilian Reais) with debt of BRL 32.1 million (thirty-two million and one hundred thousand Brazilian Reais) assumed on acquisition and contemplating adjustment of the original agreed price in function of the revision of the commercial conditions. The closing of the acquisition included a 30-year lease right to operate in a sheltered area of Guanabara Bay, Rio de Janeiro, Brazil with privileged location to attend the Campos and Santos oil producing basins.

Brasco intends to phase investments in the expansion of Briclog with the building and additional 428m of quay, to total 500m in operational quay and reform of the retro-area. With the expansion of Briclog, Brasco will further consolidate its position as one of the largest operators of support bases for the Oil and Gas industry in Brazil. The civil works are expected to commence in the third quarter of 2013, with no impact on the operations of current customers.

In 2012, Briclog’s audited net revenue totalled BRL 42.5 million and EBITDA BRL 5.6 million, numbers which reflect the actual utilization of the base without any gain of scale in relation to planned expansions. Briclog currently has 137 direct employees. Additional information on the acquisition strategy of the Briclog can be found on the site www.wilsonsons.com.br/ir.

About Brasco

As part of Wilson, Sons, Brasco is an integrated port and logistics service provider to the oil & gas industry in Brazil and it has an unrivalled capacity to setup and operate support bases along the whole Brazilian coast. Brasco offers a complete suite of services such as materials management, purchasing, storage, transport, supply of fresh water, fluids for drilling and well completion, fuelling of vessels, heavy cargo handling, casing/pipe inspection, container rental, waste management and administrative support. Working with the world’s major oil and gas operators currently in Brazil, the company has developed support bases in the cities of Niterói, Rio de Janeiro, and São Gonçalo (Rio de Janeiro); São Luis (Maranhão); Salvador (Bahia); and Vitória (Espírito Santo).
